

**Figure 1**

(a) **Mean number of eggs per female.** The y-axis ranges from 0 to 60. The x-axis shows four categories: 1st instar, 2nd instar, 3rd instar, and 4th instar. Data points are shown as open circles with error bars representing standard deviation. A horizontal dashed line is drawn at approximately 10 eggs per female.

(b) **Percentage of females with eggs.** The y-axis ranges from 0 to 100. The x-axis shows four categories: 1st instar, 2nd instar, 3rd instar, and 4th instar. Data points are shown as open circles with error bars representing standard deviation. A horizontal dashed line is drawn at approximately 80%.

(c) **Mean number of eggs per female.** The y-axis ranges from 0 to 60. The x-axis shows four categories: 1st instar, 2nd instar, 3rd instar, and 4th instar. Data points are shown as open circles with error bars representing standard deviation. A horizontal dashed line is drawn at approximately 10 eggs per female.

(d) **Percentage of females with eggs.** The y-axis ranges from 0 to 100. The x-axis shows four categories: 1st instar, 2nd instar, 3rd instar, and 4th instar. Data points are shown as open circles with error bars representing standard deviation. A horizontal dashed line is drawn at approximately 80%.
